### Car details

Tested model	Honda Civic 1.8 SE, RHD
Body type	5 door hatchback
Year of publication	2006
Kerb weight	1251kg
VIN from which rating applies	SHSRD87906U426817

### Comments

#### Front impact

Structures in the dashboard presented a potential hazard to the knees and femurs of the driver and passenger. The accelerator pedal moved rearward more than 100mm posing some threat to the driver's lower legs and ankles.

#### Child occupant

Honda dealers can disconnect the Civic's front passenger airbag to allow rearward-facing child restraints to be used in that seating position. The presence of ISOFIX anchorages in the rear outboard seats was not prominently marked.

#### Pedestrian

Both the bumper and the leading edge of the bonnet scored maximum points for the protection they offered to the legs of pedestrians. The part of the bonnet likely to be struck by a child's head was also rated predominantly 'fair'.
